

CONGRATULATIONS

"The materials in all building operations are of the utmost importance and we are greatly pleased that the Camden Lime Co. furnished the materials for not only the foundations of the new Walt Whitman Hotel but also for many of the other parts of the building.

We are proud of our part in this great public enterprise and congratulate those in charge as well as the citizens of Camden in having a fine tribute to their Civic pride in the construction of this magnificent building for the use of the public.

Camden Lime Co.
