

*Continued from page 15*

By far one of the most encouraging developments is the fact that all of the stores have been rented—they'll open with the hotel—and if there had been 10 times as many they would all have been taken. There were nine stores to rent and for these there were 56 applicants! We wish the shopkeepers unbounded success and we venture the guess that they'll be amply repaid for their foresight in grasping the opportunity to open in and with the hotel.

The city's service clubs—those organizations which when they are active, such as those are in Camden—mean so much for the growth and prosperity of the city, all will have the Walt Whitman as their headquarters. There'll be Rotary, Kiwanis, Lions, Y's Men's Club and the Real Estate Board—and in addition other organizations which desire to hold meetings from time to time will go to the hotel.

All those service clubs joined hands enthusiastically with the Chamber of Commerce and made the hotel possible in the memorable week's drive from February 4, to the 11th, 1924. We again extend our thanks.

We're mighty, mighty happy and we're looking forward to continued opportunities for real constructive service, drop in and see us.

## GROWING WITH CAMDEN
